

Joint Information Center - JIC Release No. 451
November 16, 2020, 8:30 p.m. (ChST)

Cumulative Results for November 13–15: 54 Test Positive for COVID-19

For information on COVID-19 cases, visit the official COVID-19 Situation Report and Dashboard at <http://dphss.guam.gov/covid-19/>.

Cumulative Results

To date, there have been a total of **6,175** officially reported cases of COVID-19 with **98** deaths, **2,127** cases in active isolation and **3,950** not in active isolation.

The Department of Public Health and Social Services (DPHSS) releases the official COVID-19 Dashboard and Situation Report on weekdays, however the DPHSS surveillance team is currently transitioning to a new office location and was unable to generate a full situation report today. An abridged version of the situation report was generated tonight, which does not include case profiles, nor a detailed report of positive cases confirmed by other clinics and laboratories.

An additional **54** cases of COVID-19 were officially reported to DPHSS today. These **54** cases were confirmed over a three day period, between November 13–15, 2020.

From November 13 – November 15, a total of **251** new cases of COVID-19 were officially reported. 197 of these cases were previously reported by the Joint Information Center on Saturday, November 14, and Sunday, November 15, 2020 and reflect results reported from DPHSS. The breakdown of reporting to DPHSS by day is as follows:

- **71** on November 13
- **167** on November 14
- **13** on November 15

Of the **251** cases, **171** cases were identified through contact tracing and clusters in congregating living settings were identified. **Seven (7)** cases reported recent travel from and were identified in quarantine.

As of November 16, 2020, the COVID Area Risk (CAR) Score remains at 41.5 and will be recalculated once reports from all participating labs are up to date through the weekend. The CAR Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. An ideal CAR Score for Guam would be 5.0 and below. To learn more about the CAR Score, visit [Strive for Five](#).

The following breakdown provides cumulative COVID-19 test results reported to the Joint Information Center on Monday, November 16, 2020 and reflects results from Friday, November 13 - Sunday, November 15, 2020:
